

Managed Wireless Solutions

with **eMOBUS**
manage mobility solutions

SERVICE OVERVIEW

WCS' Telecom Expense Management Services for mobile communications provides activation planning and integration services and managed services, to support the unique challenges of managing your mobile services and device expenses.

By providing services for your mobile expenses including assessment and audit consulting services, planning, design, integration, deployment and ongoing management, we can help you transform your mobile telecommunications environment.

Web-based ticketing system centralizes and automates the mobility management lifecycle - MACD requests, procurement, provisioning, invoice processing and cost allocation, inventory and usage management - allowing organizations to offload the administrative maintenance while gaining more control and visibility of their cellular infrastructure.

Ask for a demo today, you won't believe how easy managing telecom assets and lowering costs can be!
